

$$P_{1st\ year, \%} = \frac{a}{a + b} \times 100$$

$$P_{N \text{ year, \% represents the warranty period}} = \frac{P_{N \text{ year, \% represents the warranty period}}}{P_{N \text{ year, \% represents the warranty period}}} \times 100$$

With $N, 2 \leq N \leq \text{Limited Power Warranty Period}$
